Tip Raid Stock Market Brings Senate Quiz COUNCIL HEADED BY IL DUCE WOULD CALL OFF DEBTS 5 YEARS

HEAD N. Y. EXCHANGE CALLED TO TESTIFY IN SENATE PROBE

Proposed Plan for Billion Dollar Raid Would Have Made Day the "Black Saturday of All Trading History"

Copyright, 1932, by United Press
Washington.—Reports that stock exchange shorts were organized for a \$1,000,000,000 market raid which would have made Saturday the "black Saturday of all trading history" were partly responsible for senate banking and currency committee decision to begin the stock exchange investigation Monday, the United Press was informed Saturday.

Senators with banking connections laid reports of the contemplated bear raid before the committee in an emergency meeting in the Republican cloak room just off the senate floor yesterday. There were several telephone calls to Richard Whitney, president of the New York stock exchange, culminating in the committee's decision to subpoena him as the first witness.

The United Press was informed Saturday that several committee members Friday got the impression Whitney had refused to testify before the committee. Further telephone conversations Friday night clarified Whitney's attitude. It is understood now that in long distance conversations with Senator Walcott, Republican, Connecticut, Whitney was asked to submit to the committee details of short transactions of selected traders.

Senators Sound Warning
"This was to have been the day to take enormous profits on the short side," a member of the banking and currency committee told the United Press Saturday. "The reports as presented to the committee were convincing. It was to have been the black Saturday of all trading history."

"The committee had before it reports that in recent days there had been clipped from stock and bond values approximately \$7,000,000,000."

The source of warnings that emergency action was necessary was three senators—Kean, Republican, New Jersey; Walcott, Republican, Connecticut; and Goldsborough, Republican, Maryland. Kean has wide banking connections in New York, and Goldsborough is a Baltimore, Md., banker. Walcott was in the securities business at one time before turning to politics in Connecticut.

Foreign Propaganda Blamed
The United Press informant took the position that while foreign short operations and potential raids on the American gold standard were a factor in the committee's action, the real and immediate menace to market values was in the United States.

On good authority, the United Press learned that after Whitney's appearance there may be an interlude of some days or weeks before the investigation extends to other witnesses. This program is not decided upon but is believed to be likely. The inquiry, meantime, would remain a club in the administration's hands to intimidate short sellers.

Flagrant foreign propaganda against the dollar, coupled with continued decline of securities prices, led the committee to order an immediate investigation of the stock market. Its action was abrupt, but unanimous.

The committee wants to know how much of the present liquidation done by foreign interests. Senators promised that the hearings would be full and facts made public.

A senate representative was in New York today to subpoena President Richard Whitney of the New York stock exchange to appear at 10:30 a. m. Monday as the first witness. He was ordered to bring documents which will identify "bear" traders, the extent of their operations, the names of brokers through whom they trade. He defended short selling in previous hearings.

BANDIT SUSPECT NABBED, HELD FOR LADYSMITH, WIS.

SHERIFF AND DEPUTY ARREST MAN IN COTTAGE AT WASHBURN LAKE

Ladysmith, Wis., authorities were enroute to Brainerd Saturday to take into custody and return a man arrested by Crow Wing county authorities at a lake cottage at Washburn lake, 50 miles north of Brainerd.

The prisoner held in the county jail here is Albert Bosted, 30, wanted on a charge of holdup in Ladysmith.

The arrest was made by Sheriff Frank E. Little and Deputy Sheriff George Ridley Friday. They walked two miles on a trail from a side road to reach the cottage. The man made no resistance.

attacks on America's financial stability—"ridiculous." They held the reports were too absurd to warrant official notice. In response to inquiries, however, they made public data showing the vast extent of this country's gold holdings.

On April 7 the United States had \$1,396,000,000 of gold. This was 41 per cent, nearly half, of all the gold in the world. The Federal Reserve system alone had gold reserves of \$3,233,000,000 and this did not include \$246,000,000 of gold held for foreign account. Banks and individuals held more than \$1,000,000,000 more.

It was pointed out that one of the chief purposes of the recently enacted GlasSteagall bill was to fortify this country against any possible foreign raids on the gold standard. The nation's currency now is backed by about 70 per cent gold, although only 40 per cent is required. The new law provides that government securities may be substituted for the gold over the 40 per cent requirement. Hundreds of millions of this excess gold in case of emergency could be used to meet foreign demands—without touching a penny of the gold legally required to support the currency on the gold standard.

The committee's decision to proceed with the stock market inquiry was sudden and dramatic. The initiative was taken by three senators closely identified with the White House—Walcott, Conn., Goldsborough, Md., and Kean, N. J., all Republicans. This led to widespread belief that President Hoover instigated the move.

Brainerd Residents Invited to Suggest Inscription for Washington Tablet

The Brainerd Park Board intends to plant a number of large trees on the north and east sides of Gregory park, in a few weeks. These trees are to be dedicated to the memory of George Washington, the first president of the United States.

To express this and to show to succeeding generations that Brainerd has fittingly observed the Washington Bi-Centennial, a boulder and tablet will be placed in Gregory park and unveiled at the celebration on Friday, May 20.

In order to give the people of Brainerd an opportunity to express themselves as to the wording to be placed on the tablet, a suitable award will be given to the person furnishing the best inscription for the tablet.

The copy must not be more than fifty words and must be in the hands of Archie R. Falconer by Friday evening, April 15.

Judges will be appointed and announced later and the copy will be presented to them by number and not by name. Their decision will be announced when made, and the award made at the celebration.

Bonus Bill to Precipitate Bitter Fight

Washington.—The fight for the bonus, which begins before the House ways and means committee Monday, is expected to be one of the bitterest struggles of this congress. Any compromise appeared unlikely.

The 1,895 world war veterans who marched on the capitol ridge, waving flags and demanding a bonus, undoubtedly made an impression which some believe was greater than that of the recent statement by Henry Stevens, Commander of the American Legion, backing the president's opposition to any bonus payment at this time.

The president's opposition to the Patman bill, which provides immediate payment of veterans' adjustment certificates through the issue of around \$2,000,000,000 new currency, may make the passage of the bill more likely. Congressmen who are doubtful of the wisdom of the measure but believe that their vote on it will have much to do with their success or failure at the polls this year, may vote yes and let the measure go to Mr. Hoover for almost certain veto.

Des Moines.—Demanding immediate payment of the adjusted compensation certificates, approximately 4,000 world war veterans paraded through downtown streets here Friday night.

Minneapolis, Minn.—The attitude of the National American Legion organization on the bonus question was being sought Saturday by Minnesota state Legionnaires meeting in the second day of their annual spring convention here.

A resolution, asking for a meeting of the national Legion executive committee "at once," was passed by an overwhelming vote after Oscar F. Youngdahl sought to refer it to committee.

MRS. McPHERSON, LOCAL RESIDENT 50 YEARS, DIES

Mrs. Maggie McPherson, 77 years, resident of Brainerd half a century, died at 7 a. m. Saturday at the home of her son, Roy McPherson, 917 Grove street.

Funeral services will be conducted Monday, 2:30 p. m. at the First Congregational church of which she was a member. Rev. N. P. Olmsted officiating. Interment will be at Evergreen cemetery.

Mrs. McPherson was one of a number of residents whose homes were removed to make room for the construction of the new junior high school. She lived many years at 305 Bluff avenue.

Her husband, Larry McPherson, many years foreman in the N. P. round house here died in 1911.

Born in Scotland, Mrs. McPherson emigrated to Canada and from there to Brainerd.

She was actively associated in the work of the W. C. T. U. in Brainerd.

Surviving are the following children: Roy McPherson, James McPherson, Brainerd; Mrs. W. J. Havner, Wahpeto, Wash.; Lawrence McPherson, Anaconda, Mont.; Mrs. W. G. Percy, Phoenix, Ariz.; also a brother John McClean who lives in Alaska.

Southwest Poses Hunt Bandit After Massacre

A most determined man hunt in the history of the southwest is being staged by straight-shooting police and American officers on both sides of the border for three bandits who killed seven persons at the ranch home of Melquiades Espinosa, a cattleman near Berino, N. M., after demanding \$5000 which they thought Espinosa had hidden in his house. The victims were Mrs. Espinosa and her six children. At the right is shown Espinosa, who was wounded, but escaped by feigning death. The ranch house where the massacre occurred is shown and, inside, Adjutant General Osborne C. Wood of the New Mexico National Guard, whom Governor Arthur S. Sanguan ordered to the scene. Wood is a son of the late Major General Leonard C. Wood.

REPORT PROGRESS ECONOMY PROGRAM

Washington.—President Hoover and the democratic-controlled economy committee of the house joined Saturday in a non-partisan effort to slash more than \$200,000,000 from government appropriations. A saving of this amount is imperative, or the new billion-dollar tax bill must be made even higher to balance the budget.

Two plans for governmental economy will be offered when the president meets with the house economy committee, it was learned authoritatively.

The conference adjourned at 1:30 p. m. to meet again at 3 o'clock.

The White House said that "good progress" had been made at the morning session and that further progress was expected after lunch.

Rep. Wood, republican, Indiana, following the conference represented President Hoover as favoring a reduction in the salaries of federal employees, but would not reveal what form of pay cut Hoover alleged favored.

Members of the house committee as well as the president's advisers were non-committal. Rep. Wood, republican, Indiana, said he believed the government pay cuts of 11 per cent with \$1,000 exemptions should be included in the final program adopted.

Chairman McDuffie of the house committee has a list of 55 or 60 economy items to propose to the president at the 11 a. m. White House conference. These included the controversial plan to reduce by 11 per cent all government salaries in excess of \$1,000. This would save about \$67,000,000.

President Hoover had ready his own proposals, worked out in intensive conferences with cabinet secretaries and fiscal experts. They were kept secret, but the president was known to favor revision of laws which compel the government to spend certain sums each year. It was said that \$50,000,000 or \$60,000,000 could be saved in the veterans' bureau alone if the laws were changed.

A million dollars was clipped from the prohibition enforcement fund for next year as the senate appropriations committee continued its own economy program. This left \$10,000,000 for enforcement. Days on the committee approved the reduction and believed the sen-

Heirlooms, Once Owned, Used by Mother and Wife George Washington, Property Staples Decendent

A highboy, once the property and used by Mary Ball Washington, mother of George Washington, also a nightcap used by Martha Washington are heirlooms owned by Mrs. Margaret Ball Haining, Staples.

Mrs. Haining is a direct descendent of the Ball family from which Mary Ball came. Mary Ball married Augustine Washington and to this union George Washington, first president of the United States was born. In physical appearance, George Washington favored his mother's people.

At the time of the dedication of the Mary Ball home by the Daughters of the American Revolution, Mrs. Haining, then Mrs. Margaret Ball Dixon, professor of English at Valparaiso College, was one of the reception committee. This reception committee comprised descendents of the illustrious Ball family.

"Dollar Days", a Festival of Bargains In Merchandise, Planned by Merchants

Another shopping holiday, heralded as surpassing all other bargain events at which quality merchandise reigns and low prices are the dominating factor, is planned by Brainerd Merchants in cooperation with the Daily Dispatch for Friday and Saturday, April 15 and 16.

Already merchants, highly elated over the results of the first "Dollar Days" sponsored by The Daily Dispatch several months ago, are combing their stocks for unusual values. As a consequence, shoppers of Brainerd and the surrounding trade territory will find a galaxy of unusual and almost unheard bargains awaiting them during the two-day bargain festival.

Late season merchandise will be placed on the counters marked down to a price that will defy passing up. Bargains in every sense of the word at the regular prices, merchants are sacrificing profit to provide their patrons with their products at rock level quotations in token of appreciation of their business.

Watch for the "Dollar Day" announcements in The Daily Dispatch. They will startle you. The bargain festival is Friday

SEARCH LINDBERGH BABY RETARDED AS CLUES COLLAPSE

INTEREST SHIFTS TO LANSING WHERE GANGSTERS ARE SOUGHT

Hopewell, N. J.—Negotiations for return of the kidnapped Lindbergh baby have failed for the time being.

Clues which caused hope to burn high at the Lindbergh home this week have led to naught, and now Colonel Lindbergh and his associates are seeking new trails that might lead to the child's return.

Lansing, Mich.—Interest in the kidnapping of the son of Col. and Mrs. Charles A. Lindbergh today turned to Toronto, Can., where two Michigan state detectives are seeking gangsters believed involved in the abduction.

Oscar G. Olander, state commissioner of public safety, said the detectives, Lyle Hutson and William Watkins, had a "live clue," but refused to confirm reports that Harry Fleisher, Purple gang member, had been dictating the child's return against the liberty of three fellow gangsters.

Toronto, Ont.—The Toronto Star said Saturday it had learned definitely that Harry Fleisher, sought for questioning in connection with the Lindbergh kidnapping case, was in Toronto last week end. The newspaper said Fleisher left early this week for Montreal, where he now is in hiding.

Norfolk, Va.—John H. Curtis, Norfolk shipbuilder who has been active in purported negotiations for the return of the kidnapped Lindbergh child, was said today to be preparing for an airplane flight to an unannounced destination, presumably in furtherance of his efforts to contact the abductors.

GERMANY TO POLLS AGAIN ON SUNDAY

Berlin.—The second race for the German presidency between President Paul Von Hindenburg, aged 84, and the German nation in war and peace, and dapper, tense Adolf Hitler, young Fascist chief, will be decided Sunday when more than 37,000,000 voters go to the polls.

Few political prophets outside the ranks of the enthusiastic "Nazis" would concede Hitler an outside chance for victory. Five candidates were in the first election and three will be voted on tomorrow. But the contest lies between the conservative forces headed by Von Hindenburg and the supporters of the flashing and at times sensational and theatrical Hitler.

The president lacked only 170,000 votes of a clear majority over his combined opponents in the March elections. This deficiency made a run-off necessary.

By United Press Rome.—Italy advanced a "five year plan" for world peace Saturday, suggesting renunciation of war debts and reparations, revision of peace treaties, elimination of tariff barriers, and fewer international conferences.

The five year plan of disarmament was sent to the League of Nations. The other resolutions were adopted by the Fascist grand council in its capacity of supreme advisory body to the nation.

5-Point Plan
The grand council met under the presidency of Premier Benito Mussolini. Its resolutions regarding the world crisis, "which now has a moral and political rather than economic aspect," were:

1. The necessity of renunciation of reparations and cancellation of war debts;
2. Suppression of restrictions of international trade before they result in the strangling of trade of all countries;
3. Relief of the Danubian countries, representing 70,000,000 inhabitants;
4. Revision within the spirit of the League of Nations of peace treaties responsible for the restiveness of people which may cause new wars;
5. Renunciation of more frequent convention of international conferences raising the vain hopes of the people and increasing their difficulties.

Regarded as Challenge
The grand council received the right to examine Italy's position within the League of Nations at the October session. The Italian disarmament proposals were endorsed as offering the only practical and logical solution.

The government regarded the disarmament proposals as a challenge to all countries to prove the sincerity of their disarmament programs. The proposals were expected to meet all the essentials for ensuring peace without immediately destroying present armaments, which would increase unemployment.

The peace plan was mapped to be in full operation in five years. It proposed revision of the laws of war to provide greater protection to civilian populations, and asked for full voluntary reports on the armed forces of all nations.

The plan outlined the proposals submitted to the world disarmament conference by Foreign Minister Dino Grandi. It made the following suggestions for the immediate or gradual destruction of all means of war:

Destruction of heavy land artillery, tanks, armored cars, peace-time instruments which could be transformed for use in war, and the pledge not to replace these materials;

Destruction of capital ships, submarines and aircraft carriers, and the pledge not to construct more; Destruction of military dirigibles and bombing airplanes, without replacement;

Elimination of chemical armaments of every kind, especially gas, liquid, and bacteriological warfare.

OFFICER SLAIN IN MACHINE GUN FIRE

Bixby, Okla.—Erve Kelly, former McIntosh county sheriff, was slain today in a machine gun battle with two men believed to have been Charles (Pretty Boy) Floyd, notorious fugitive, and his lieutenant, George Birdwell.

The battle occurred at 3 a. m. today in a timbered area near here. Kelly, A. B. Cooper, Burns detective, and Deputy Sheriff Long of Bixby had gone to the reputed hideout of the notorious bank robbers about midnight in search of Floyd, accused in almost a score of Oklahoma bank robberies, and a suspect in several slayings.

Long and Cooper went to flush Floyd. They left Kelly as an outpost.

"SAVE AND SPEND" CAMPAIGN GROWS

Several of America's outstanding merchandising and manufacturing organizations have recently expressed their support of the "Save and Spend" prosperity drive originated by The Ladies' Home Journal, according to information received by L. E. Swanson, manager of the local Montgomery Ward store.

"These companies are helping to restore prosperity by failing in line with the patriotic 'Save and Spend' campaign that is now getting under full steam." With the slogan, "It's Up To The Women!" the Curtis publication has sponsored this prosperity movement, thousands of letters being received daily in praise of it.

Mr. Swanson commented that the home offices of Montgomery Ward and Company have determined upon the eight days from Saturday, April 9, to Saturday, April 16, to assist the spending campaign. "We know that these eight days which we call Ward Week," continued Mr. Swanson, "will be recognized by the American public as a distinct contribution to better times."

"I am pleased that my store will for eight days in particular help the national drive. What really pleases me is the method our executives have hit upon to assist the 'Save and Spend' campaign—that is, they are making prices so low and values so great that everybody will find it easy to spend wisely," was the statement of the local manager.

Every visitor to the Ward store will be given a copy of the "Save and Spend" campaign published by The Ladies' Home Journal. The local store will increase its sales force during Ward Week to assist with the fresh stocks that are arriving daily.

AN UGLY PICTURE—

Recent testimony before the Senate committee regarding Al Capone's experiences with the law in Chicago makes dismal reading. It confirms all that has been said about the power of gangland, and it leaves the forces of law and order with very few laurels.

It's an old story, or be sure. But it is a story that needs to be told and retold, for it explains a great deal about the state of politics and government in the United States today.

First of all, we get the picture of the arch-criminal, the "master of the underworld," moving in sober fact through a realm that would have been thought too fantastic even for fiction a few years ago.

We are shown how criminal activities of every kind were integrated; how the nation's second city paid millions upon millions of dollars in tribute annually to the country's most notorious crook; how the power of the man was so great that witnesses feared to testify against him and policemen hesitated to move against him.

Then we get the climax. The great criminal at last is laid by the heels. And why? To answer for any one of the innumerable high crimes committed by his agents? Not at all. Simply because he had failed to pay taxes on the enormous profits his illegal activities had rolled up.

Then, as if their were not farce-comedy enough, comes the revelation that the prosecutor and judge who were to try him agreed to let him down with a comparatively short sentence if he would plead guilty. This deal fell through because, as the prosecutor complained, Capone with "unbelievable arrogance" made public the terms of the deal.

The "unbelievable arrogance," of course, really consisted in making the deal in the first place. When he talked about it, Capone was not being arrogant; he was simply being indiscreet.

The whole picture is not pretty, but we need to keep looking at it. It is perhaps the most significant story that the republic has produced in the past decade.

CLOWNS IN RUSSIA—

A campaign was begun in Moscow the other day to abolish clowns in all circuses which give performances within the Soviet union. Clown performances, it is explained, are incompatible with proletarian principles and do very little to advance the five-year plan or build up a strong Communistic regime. Hence they must be cut out of the picture.

This, of course, is just another of those things that make one wonder what has happened to the Russian's sense of humor—if he ever had one. But it serves, also, as a reminder that some of the most pleasant things in life are absolutely and unashamedly useless.

Circus clowns don't advance the cause of Communism? Well, they don't advance the cause of capitalism, either. They don't advance the cause of anything—which is why we like them. And a society that has no use for anything useless must be an uncomfortable sort of place to live.

THE AUTO BAROMETER—

The automobile industry ought to be giving us a pretty definite clue, during the next few months, about the prospects for an early return of prosperity.

It is commonly assumed that the condition of the auto industry is a good barometer for industrial conditions generally. When the auto trade is booming, we generally find other lines prospering too.

Now the auto makers are getting prices down to rock bottom. Ford, Chevrolet and Plymouth are among the companies that are offering startling bargains at new low prices. We shall know, very soon, if these new price levels are going to mean a general boom in the auto factories. If they do, national prosperity cannot be very far away.

A REFRESHING COMMENT—

An exceedingly interesting comment on the way in which those eastern college students were checked by local authorities when they tried to enter Bell and Harlan counties, in Kentucky, recently, was furnished the other day by H. R. Giles, city commissioner and prominent merchant of Middlesboro, Ky.

Declaring that County Attorney Walter B. Smith had a regular army of deputies out to stop the students, Mr. Giles remarked:

"If that gathering of around 2000 hecklers and ruffians from three counties—including many of the worst characters, who had been deputized, filled with liquor and armed to the teeth—constituted law and order and Kentucky bravery and chivalry, then I don't know what rank cowardice and lawlessness is."

It is encouraging to find that there is at least one prominent resident of the Kentucky mine war area who is willing to speak out against the un-American practices of the officials there.

THE OPEN FORUM

To Editor Daily Dispatch:

In a recent issue of the Daily Dispatch I read that the Fish and game department is about to proceed to destroy 600,000,000 fish fry or spawn. I wonder how long the public will allow such willful destruction of our native fish. This is the principal cause of depletion of fish in our immediate vicinity and everywhere else they carry on such a destructive system. I defy or challenge the game and fish department to show any visible increase from such a system. Dr. Thaddeus Surber should know that fish propagation of this kind is destroying instead of increasing the supply. Facts of everyday life have proven for the last thirty years that there is no visible increase whatever from such a practice. I recently wrote a letter in your Open Forum stating this system was destroying instead of conserving the fish in our lakes. I called the attention of the public to the fact that this department had not any pike fingerlings to distribute this coming spring season. I was right. They have none to distribute. They are going to continue the destructive system of catching the mature fish and forcing the spawn from the females and also the males and then take them to the so-called fish hatchery and wait until they look like living microbes and then distribute them or dump them into the waters of our lakes and streams. A sickly mess for the game fish minnows and perch to swallow immediately. Why not leave them in their natural waters in the first place and give them a natural chance to live? This isn't a theory of mine but a natural fact proven to be destructive covering a period of over thirty years. Ever since they used a fish hatchery for this particular fish species. Destroy the natural increase every year. How much longer can this go on until we shall have very few wall-eyed pike in our lakes? The Game and Fish department is destructive in its methods of propagation and protection and some other system will have to be adopted before we can hope to protect or conserve the natural increase of the game fish in our lakes and streams.

How long will be sponsors of conservation be fooled by such a system? If you want to increase the fish supply in our lakes wake up. Don't be fooled by book knowledge based on theories and men like Dr. T. Surber who claims to have written books on fish propagation. Anyone can write a book on fish life and also propagation but you cannot expect that to increase the fish supply or any other game by such destructive methods as they use. You cannot hope to begin to transplanting trees because it's too expensive and the chances of being planted right, etc., are also against that particular product. There is only one way to increase the growth of timber products and that is in a natural way. The trees will reproduce themselves a thousandfold if you will just keep the forest fires down and out nature's way. The same with game and fish. The government dam helps to conserve the water and nature will proceed to fill up all our lakes to overflowing when the time comes.

T. F. SALISBURY.

Editor of Daily Dispatch:

The members of the Brainerd Merchants Independent basketball team wish to thank you for the excellent publicity given us during the past season through your paper.

This publicity is very essential to the success of such ventures. We feel that this interest for the young men beyond high school age is very worth while as it means a clean and upbuilding sport for a large number of men whose opportunity for athletic recreation is limited.

The cooperation we have received from the Brainerd Dispatch has to a great extent helped in making the season a successful one for the team itself, and for the merchants in Brainerd whose support made the team possible.

Yours very truly,
Brainerd Merchants
Basketball Team.

To Editor Daily Dispatch:

I have just seen a copy of the Wednesday paper off the new presses. The Dispatch and the city of Brainerd certainly have a right to be proud of this new expansion.

Sincerely yours,
H. KRIEGHBAUM,
Northwest, Manager,
United Press.

Gift of Few Drinks Held Not Invalidate Election

St. Paul, Minn.—The gift of a few drinks to friends by a candidate does not invalidate his election, and were interpreted by the supreme court today to be friendly acts of hospitality.

The ruling was made by the state supreme court affirming a Dakota county court which refused to remove C. E. Tuttle, Hastings, as county register of deeds on charges brought by O. W. Englebert, the defeated candidate.

EPWORTH LEAGUE FELLOWSHIP HOUR HERE SUNDAY AT 5

Young People's Epworth League of the Methodist church will have as its guest Alice Engelbreton, Crosby, president of the Duluth district, at a Fellowship hour beginning at 5 o'clock with luncheon Sunday.

Jean Cibazar will lead the devotional service following the dinner. At the regular evening service in the church, the Rev. F. A. Kufus, pastor, will preach on "God—Ever Present." The topic of his morning sermon will be "The Abundant Life."

REV. VALIANT TO GIVE IMPORTANT MESSAGE SUNDAY

The service at the First Baptist church Sunday morning at 11:00 o'clock will be one of the most important conducted in the church for some time, on account of the pastor's proposal being presented to the church and congregation for its consideration and action.

"A Great Opportunity" is the subject Rev. Valiant will discuss at the service, and in the evening meeting he will speak in "The Three S's."

Rev. Valiant will also conduct a service at Mill Mission in N. E. Brainerd Sunday afternoon at 3:00 o'clock.

* Our Woods and Waters *

The Lowly Sucker—A Necessary Rough Fish

The principal source of food supply for game fish has been sadly reduced by the wanton destruction of suckers and other so-called rough fish.

The old theory that suckers did enormous damage to pike spawn has been proven false because the sucker consumes very little if any food at the season of the year when pike spawning is at its height. The sucker gives the savage black bass a wide berth when the male is guarding the nest which he does as soon as the female deposits her eggs. This wary game fish will venomously attack anything that comes near while he is attending to his duty not because he is hungry but to protect the spawn. It is for this reason that he so frequently falls victim to the murderous gang hook plug although real sportsmen will not deliberately fish in bass waters until the spawning is over. Nor does the sucker destroy trout spawn for the reason that when the trout eggs are deposited on their spawning beds the sucker has retired far down the stream into the deeper pools. The trout's deadliest enemies are stream pollution and the two legged creature that will run fish for him with rod and line but with more deadly and destructive weapons.

The much maligned sucker is not near as black as he is painted. The fact is that this so-called rough fish is of great value as the natural food for game fish. It is in places where rough fish have been practically eliminated that the game fish turns cannibalistic. This means a depleted supply of game fish.

It was not so long ago that pickarel were killed and thrown away by many fishermen as a nuisance. Today it is considered a game fish. Strange as it may seem in waters depleted of game fish the sucker is fished for with the same ardor as game fish. If anyone will travel up the Mississippi in the spring he will find a few miles above Minneapolis fisherman after fisherman angling for suckers with throw lines baited with angle worms and the catch of a fair sized sucker arouses a deal of enthusiasm.

The lowly sucker has a very important part to play in the balance of nature as a food for the game fish and as a vegetation eater in lakes. He should be given at least some consideration and not wantonly destroyed.

The subject of the Lesson-Sermon in Christian Science churches in all parts of the world on Sunday, April 10, 1932, is "The Sin, Disease, and Death Real?"

The Golden Text is: "He that is our God is the God of salvation; and unto God the Lord belong the issues from death" (Psalms 68:20).
The following verse from the Bible is among the selections comprising the Lesson-Sermon: "For the law of the Spirit of life in Christ Jesus hath made me free from the law of sin and death" (Romans 8:2).
The Lesson-Sermon also includes the following quotation from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "If God is admitted to be the only Mind and Life, there ceases to be any opportunity for sin and death" (p. 276).

Golfers Fondle Clubs as Spring Lures

NUMBER ALREADY UNLIMBERING FOR PLAYING SEASON

In the spring a man's fancy turns to thoughts of golf. And, that word might just as well be golf as far as Brainerd divot daddies are concerned. Already several have ventured upon the Brainerd Country club course to unlumber their creaking arm muscles and others are bravely fondling their drivers and mashies in preparation for the opening of the golfing season.

It won't be long now before courses in Brainerd and its environs will be thrown open to those in quest of the elusive par but a timely warning now when the sod is still soggy from the snow-crusts months is to avoid the green. Officials of the Brainerd Country club have issued this warning hoping to eliminate any possibility of inferior greens this year as a result of play too early in the season.

Courses in this community are facing a banner year with interest in the game already quickening to a point where only strong restraint makes it possible to wait better climatic conditions. From all indications Brainerd will have a regiment of golfers unsurpassed in numbers since the dream of the Brainerd Country club became a reality.

Other courses will also go through the conditioning process here many weeks fly by. Pine Beach and Breezy Point operators are looking forward to a successful season and are planning to attune their courses to make the golfer smile with glee over even a slight handicap.

Until the active season begins, Brainerd golfers will suffer itchy palms anxious for the feel of a putter and shuffling feet eager to again get the feel of the fairway.

SET NEW WORLD SWIMMING RECORD

Chicago—Chicago swimmers held a new world record for the 300-yard medley relay Saturday, although victory in a swimming meet went to the contenders, the Los Angeles A. C.

The Chicago trio, composed of Horn, breast stroke; Kerber, backstroke; and Highland, free style swimmer, negotiated the distance in the Lake Shore A. C. pool last night in three minutes, four seconds, to break the existing record of three minutes, five and six-tenths seconds, held by a Lake Shore team.

Another Chicago team broke the existing record in the 400-yard relay, which it covered in three minutes, 32 and one-tenth seconds, but failed to better the mark of three minutes, 32 seconds set last week by the New York A. C.

The Los Angeles A. C. team, featuring such stars as Buster Crabbe, Austin Clappe, Mickey Riley, and the Kalili brothers, won the meet by a score of 33 to 31.

K. C. Woman Golfer Victor Dogwood Event

Greensboro, N. C.—That consistently good golfer, Mrs. Opal S. Hill of Kansas City, has won the Sedgwick Country Club Dogwood Golf championship for the second consecutive year.

The western champion scored an easy 7 and 5 victory over Margaret Maddox of Atlanta, Georgia champion, in the final match Friday.

SHAMROCKS NOSE OUT DULUTH FOR A. L. PUCK TITLE

Duluth, Minn.—The Chicago Shamrocks were champions of the American Hockey league Saturday by virtue of a dramatic 4-3 victory over the Duluth Hornets despite dismissal of their manager and press agent and desertion of the team's captain.

The Shamrocks took the championship by scoring a third victory in the post-season series with the Hornets in an overtime period.

The championship was clinched just a few hours after President Thomas J. Shaughnessy announced he had dismissed Cicil (Babe) Dye, the team's manager, and Chester Grant, press agent.

Shaughnessy said he removed the men when he learned that Captain Gordon Drysdale left for Toronto after Thursday's game to be married.

The game Friday night was marked by a sensational attempt by the Hornets to snatch victory after apparent defeat.

Shamrocks scored once in each of three regular periods. After ten minutes of the third period Duluth rammed in three quick tallies, evening the score. In the extra period, D. McFadden of Chicago scored, winning the championship.

Wiseman scored from Pieslesnik in the first period. Wiseman scored in the second period. Riley scored on a pass from Wiseman in the third period. Then the Hornets swarmed at the Chicago nets, five players hovering about the Shamrock goal. Within a minute and a half, Bouchard and Forslund tallied, and Scott scored on pass from Forslund, evening the score.

State Legislator Maas Airminded

Washington—Rep. Melvin Maas, republican, Minnesota, who is said to be the only licensed airplane pilot in congress, is attempting to make the house airminded. Tuesday afternoon he took Rep. Gerald J. Bollenau, republican, Wisconsin, and Paul Kvale, farmer-labor, Minnesota for a flight.

They had a swell ride over Washington and nearby Virginia and then remembered that they ought to be in the house chamber by 4 p. m. to vote on the Lusk-Granata election contest. So they cut short the flight and hurried to the capitol.

MILL CITY YOUTH TAKES CENTRAL A. U. HEAVY HONORS

Chicago—Central A. A. U. boxing champions in all weight classes were selected Friday night in Loyola gymnasium before 2,000 persons.

The eight winners battled their way through a heavy entry list from Illinois, Minnesota and Wisconsin before receiving their title belts and statuettes of boxers. The winners and runners-up:

112 lbs.—Champion, Frank Sanello, Chicago. Runnerup, Lynn Thompson, Chicago.

118 lbs.—Champion, Nick Scialaba, Chicago. Runnerup, Johnny Scianavino, Chicago.

126 lbs.—Champion, Tony Muscarello, Chicago. Runnerup, Joseph Palazzolo, Chicago.

135 lbs.—Champion, Eugene Higgins, Chicago. Runnerup, Ernest Toniello, Chicago.

147 lbs.—Champion, Johnny Phagan, Negro, Chicago. Runnerup, William Celebron, Rockford.

160 lbs.—Champion, Fred Caserio, Chicago. Runnerup, Anthony Zale, Chicago.

175 lbs.—Champion, Max Marek, Chicago. Runnerup, Frank Androff, Minneapolis.

Heavyweight—Champion, Earl Sather, Minneapolis. Runnerup, Frank Ketter, Chicago.

The Central champions will go to New York next month to compete in the National A. A. U. tourney which will decide the makeup of the American Olympic team.

The outstanding champion of the 24 semi-final and final bouts was Earl Sather, blond giant of Minneapolis, who scored two knockouts in defending his title won last year. Sather, rangy and clean limbed, knocked out John Logan, Chicago, in two rounds in the semi-final, and Frank Ketter, rawboned heavyweight of Chicago, in two rounds in the final bout.

CHAMPIONS FALL IN BOWLING EVENT

Detroit—Three 1931 champions have failed to come back to the present American Bowling Congress tournament, and tonight the fourth champ, the S. and L. Motors team of Chicago, will see what it can do.

Last night several teams made game attempts, the Grene Cabs of Cleveland, running up 3,009 pins for fifth place. Its games were 985, 976 and 1,046.

Sixth place was grabbed by Meukow Cut Stone Co. of Toledo, hitting 2,996. Brucks, of Chicago, slipped into tenth spot with 2,854.

Other scores include Eagles of Toledo, 2,945; Majestic Radio of Cleveland, 2,926; Fielder Mohr Nash of Blue Island, Ill., 2,873; Babcock Dairy of Toledo, 2,868; Moose of Alliance, O., 2,866; Marott Shoe Shop of Indianapolis, 2,847, and Pittsburgh U. A. No. 1, 2,838.

Poison Spray on Trees Blamed for Horse's Death

San Francisco—Poison spray used on ash trees at Ed Perry's ranch in Menlo park was advanced by federal experts Saturday as a possible cause of the death of Phur Lap, \$500,000 Australian "wonder horse."

Arsenic in considerable quantities was found in an analysis of grass samples removed from the paddock where Phur Lap was grazing a few hours before he died last Tuesday. Food and drug bureau officials said they also expected to find traces of lead, another component of tree spray.

CREWS READY FOR ROWING CLASSIC

Seattle, Wash.—Clouds drifted out of the skies Saturday as three sturdy crews from California and three from Washington gathered at Lake Washington for the western rowing classic—the Pacific coast intercollegiate regatta.

With fair weather virtually assured and every athlete in fine condition, new records were expected. If the water roughens a bit, as it is likely to do, the Washington varsity will gain the last-minute bets among the 80,000 persons expected to see the regatta from an observation train, boats and vantage points along the new Sheridan beach course.

Coach Ky Ebright of California and Al Ulbricksen of the Huskies were pleased at the weather indications and the condition of their men.

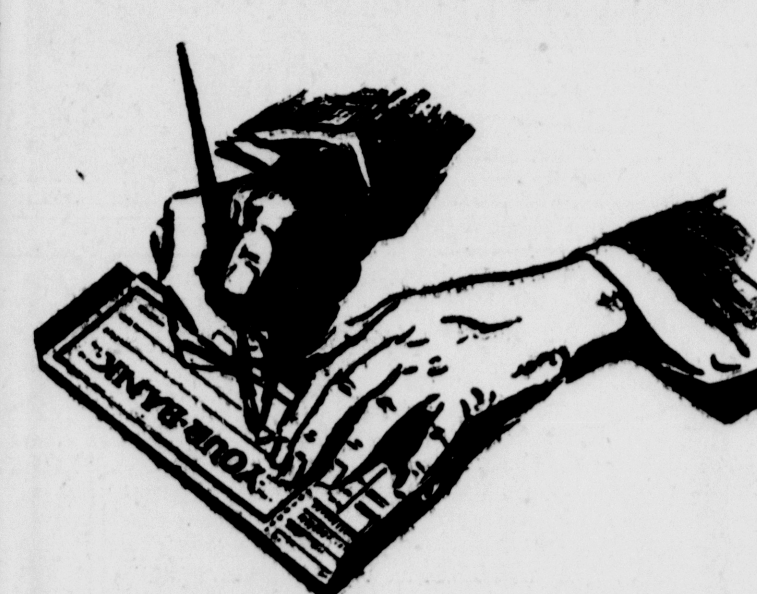

The Washington varsity, junior varsity and freshmen crews swept every race last year on Oakland estuary and in addition set new records. Varsity time was 14:33 for three miles, junior varsity 15:30 for the same distance and freshmen 15:56 for two miles. These are the marks which will stand or fall this afternoon.
